

## Additional Questions Regarding RFP 10300

Here are brief answers to your questions. In general, for this proposal we are relying on your recommendations and what you believe to be an appropriate way to present it to us.

Q1. We not are applying as a prime integrator for RFP 10300. Rather, we are proposing to address the component of the RFP that speaks to building community capacity to build healthier communities in Kansas. Therefore, we were wondering if it still made sense for us to format our budget by “per eligible” and “per participant” instead of a more traditional budget based upon the support we are proposing to provide to build community capacity.

Answer: Use an outcome-based proposal with costs.

Q2. What should the budget look like?

Answer: There is no set format. Base it on your recommendation

Q3. What is needed in terms of budget justification?

Answer: Base it on your expected outcomes/experience

Q4. Is there an indirect cost cap or fringe benefit cap?

Answer: This is open ended.
